Anticipating Success with Butterflies

This presentation identifies the feelings – both positive and negative – that a person experiences in striving to achieve success. Some of the feelings experienced feel like “danger” or “stress”, but in reality contain a message of encouragement and readiness. Participants will take away a message and vision of success brought to them by a beautiful friend in nature – Butterflies.

Thursday, November 20, 2014
11:15 - 12:40 pm
Ballroom B
(Memorial Student Center)
