

TRANSFER ARTICULATION AGREEMENT
between
University of Wisconsin – Stout
and
Colleges of the Wisconsin Technical College System
in
B.S. Management

Developed in response to place-bound professionals' need for additional education, the Bachelor of Science degree in Management is a collaborative effort between the Colleges of the Wisconsin Technical College System, and the University of Wisconsin-Stout.

The 120 credit degree has a 40 credit General Education requirement, 40 credits of Major studies and 40 credits in the Technical Emphasis area. The 40 credit block of courses in the Technical Emphasis area for the Management major requires the development of competence in a technical area. For purposes of transfer between the Colleges of the Wisconsin Technical College System (WTCS colleges) and UW-Stout, a technical area is recognized as any of the areas for which the WTCS colleges offer either an A.A.S. or two-year diploma program.

UW-Stout recognizes that the successful completion of the program at the WTCS colleges is sufficient evidence to warrant our acceptance of technical credits in this area towards the B.S. in Management.

General Education courses offered as a part of the A.A.S. program at the WTCS colleges in the areas of Communication Skills, Social Sciences, Math and Science may also transfer and be used towards the B.S. Management. These applicable courses have been pre-determined and are available as to their transferability on the Transfer Information System. Those that have not been pre-determined may be reviewed on a case-by-case basis after a review of course syllabi.

Based on the above information, students transferring from a WTCS college with an A.A.S. degree *that includes* transferable courses within the general education categories stated above, and a minimum of 40 technical emphasis, will need approximately 64 additional credits to complete the B.S. Management at UW-Stout. A student from a qualified A.A.S. degree program will typically transfer 16-20 credits of general education and 40 credits of Technical Emphasis (*this information may vary dependent upon the A.A.S. degree earned*).

The following limitations apply for the B.S. Management:

1. Each student must satisfy the University ethnic studies and global perspectives requirements for graduation.
2. Remaining general education requirements may be fulfilled through any regionally accredited post-secondary institution. It is the student's responsibility to have official transcripts showing completion of these courses, including grades, forwarded to the UW-Stout to be added to their academic record and counted towards the B.S. degree.
3. Students at UW-Stout will be required to complete a minimum of 32 credits in residence for a bachelor's degree at UW-Stout. By completing the Professional and technical studies portion of this degree, most students will satisfy the 30 credit residency requirement.
4. The program plan included with this agreement reflects the requirements in the Management program which pertains to this agreement. The plan sheet can also be viewed at <http://www.uwstout.edu/programs/bsm/ppc.cfm>.
5. This articulation agreement applies only to the B.S. Management degree in effect 2013 fall semester, until revised. A change of major invalidates these course/credits for transfer unless they are approved within some other program-to-program articulation agreement for another major at UW-Stout.

Signatures completed May 2014. A copy of the signed agreement available upon request.
