Dear Applied Science Faculty & Staff,

I am currently a **Ph. D.** graduate student in the **Inorganic/Materials Chemistry** Program at Oregon State University in Corvallis, Oregon.

I am a **Teaching Assistant** for General Chemistry for science majors, and will be taking Inorganic Chemistry, Physical Chemistry and possibly **X-Ray Diffraction Crystallography**.

I am working on research with Dr. Mas Subramanian, a world renowned material chemist at OSU, on designing new inorganic solid state functional materials for emerging applications in electronics and solid-state energy conversion which will be in association with HP electronics.
