RE: CORE Committee

This is to acknowledge that the name of the approved CORE Committee has been changed from Committee on Research Experiences to “Creative Original Research Experiences.”
Good Morning Chancellor Sorensen,
I am writing to thank you for approving CORE (Committee On Research Experiences) as an official committee here at UW-Stout. After contacting the membership we have decided to change the acronym to stand for: Creative Original Research Experiences to reflect a more inclusive stance on research as it applies to the disciplines represented across campus.

I am contacting you to let you know that CORE should now be referred to as the Creative Original Research Experiences committee as per suggested by Julie Furst-Bowe.

Thank you again for approving the CORE committee and for your support in our endeavor to bring undergraduate research to the University of Wisconsin-Stout.
Sylvia

Subject: RE: CORE Acronym Change

Sylvia

This was approved as an official committee. I think you can update the name and just let the Chancellor’s office know.

Thanks
Julie

Subject: CORE Acronym Change

Good Afternoon Richard and Julie,
There is an acronym change for the CORE committee. It is being changed to Creative Original Research Experiences committee. I have submitted a form to get the committee approved by the chancellor and I have a student senator working on drafting a resolution to bring forward to the academic senate. Can you please tell me where the committee approval form is in the process of being approved and what I need to do to get the acronym changed.
Thank you for your time and help with this.
Sylvia
