

General Education, Racial & Ethnic Studies, and Global Perspective Courses

Fall 2012

General Education Requirements

Each degree program has a general education component designed to provide you with knowledge and skills in communication, analytic reasoning, health and physical education, humanities and the arts, social and behavioral sciences, natural sciences and technology. Listed below are the general education credit distribution requirements and courses that will fulfill these requirements. General education courses are listed by category and area. Not all courses are offered each semester. Changes to the list of courses can occur at any time.

Some degree programs have specific general education courses that must be taken in order to satisfy certification, accreditation or prerequisite standards. These exceptions are noted on your program plan sheet.

Racial and Ethnic Studies Requirements

Each student must satisfy the racial and ethnic studies requirement as preparation for being an engaged citizen in a highly diverse society. Through approved courses, it is hoped that graduates will come to appreciate, understand, value and respond respectfully to cultural diversity. Through the study of U.S. cultures other than those from a European origin, we hope to discourage racism and thus reduce its effects. Courses examine the experiences of historically underrepresented U.S. racial/ethnic groups: African American, Hispanic/Latino, Asian American (with an emphasis on Southeast Asian American), and American Indian. An important emphasis is critical reflection and application of acquired learning to professional and personal contexts. Students are required to take either

Global Perspective Requirement

Both the globalization of work and the career education that is part of UW-Stout's mission make it desirable that students appreciate cultural, economic, political, environmental and social differences. Learning a second language at the college level and developing an understanding of another culture provides students with skills they will use in international situations. To earn a bachelor's degree, students must fulfill a global perspective requirement by:

Requirement for students beginning Fall 2010

- Completing a program of university-approved work or study abroad, or
- Completing six credits of courses approved as fulfilling the global perspective requirement.

Requirement for students admitted prior to Fall 2010

Second Language Option

- Completing two years of the same second language in high school with a grade of "C" or above, or
- Completing four university credits of a second language with a grade of "C" or above, or
- Demonstrating competency in a second language by means of a standardized examination. International students who are not native speakers of English must have a TOEFL score of 500.

Global Experience Option

- Completing a program of university-approved work or study abroad, or
- Completing six credits of courses approved as fulfilling the global perspective requirement

NOTE: With careful planning, you may take a single course that fits into areas of general education, ethnic studies, and/or global perspective. While credits count once toward graduation, they may be used to satisfy multiple requirements. When a course meets multiple requirements, codes indicating other categories are listed in parentheses next to the course listing.

Students planning to study abroad should refer to your application materials and consult with your advisor to see how courses taken abroad satisfy GE and ES requirements.

Exceptions, substitutions, and/or waivers regarding General Education, Ethnic Studies, or Global Perspective requirements must be approved by the Associate Vice Chancellor.
