

# Freshmen Admission Expectations

12/12/06

## 2007-2008

### Admission Criteria

Academic preparation is the primary consideration for admission. No single factor, attribute or characteristic will be used to determine admission. We will consider both academic achievement and other non-academic factors.

### Academic Rigor

Applicants must complete the high school course requirements as determined by the University of Wisconsin System.

#### **Minimum for Admission**

|                 |    |
|-----------------|----|
| English         | 4  |
| Math            | 3  |
| Social Science  | 3  |
| Natural Science | 3  |
| Electives       | 4  |
| Total Units     | 17 |

### Rank in Class

Students who rank in the top 50% of their high school graduating class have a high probability of being admitted.

### ACT/SAT Test Scores

Students who score a 22 on the ACT (or SAT equivalent) have a high probability of being admitted.

### Grade Point Average

Students must maintain a high level of achievement in challenging coursework throughout high school.

## Trends in Grades

The pattern of grades over time is important and an increasingly strong academic record can improve the likelihood of admission.

## Nonacademic Criteria

In addition to academic achievement, the Admissions office will consider the following as part of the review of an application: leadership, volunteerism, personal statement, honors and awards, letters of recommendation, socio-economic background, extracurricular activities, diversity of personal background, and work experience.

## Profile of Admitted Freshmen

This is an example of the typical profile of an admitted freshman. Students with these academic standards have a high probability of being admitted:

|            |         |
|------------|---------|
| ACT        | 22      |
| GPA        | 3.3     |
| Class Rank | Top 50% |
