UW-Stout Use of Student Posters - The Institutional Repository

UW-Stout sometimes uses student-generated words for different purposes if students give consent to have their works used. Posters could be used as displays in campus buildings, at events such as Career Day or Alumni Meetings, or appear as reproductions in brochures and other pieces publicizing UW-Stout and student accomplishments.

By checking the box in Part C of the Research Poster Submission form, you are giving your consent to UW-Stout to use your poster in such situations as described above. Consenting to this is optional and will not affect the speed or order in which your poster is printed.
