Cooperative education

Several area UW-Stout students are employed through the university's Cooperative Education Program.

Nearly 900 students participate annually in the program integrating college studies with work experience in industry, business, government or public service.

Participating students develop employment contacts and interpersonal skills and pursue career goals in addition to applying educational theory to the work setting.

Students leave campus for up to a year to work nationally or internationally to develop their professional skills as they prepare for careers.

Following are the area students participating in the program, their majors, job title and employer:

Derek Anderson, Ellsworth, packaging, quality assurance intern, Belmark, DePere.

Austin Baker, Cumberland, manufacturing engineering, manufacturing engineering intern, Unison Comfort Technologies, Minneapolis.

Jackie Fiege, Menomonie, construction, estimating intern, TIC-The Industrial Co., Steamboat Springs, Colo.

Kortnie Franze, Altoona, packaging, packaging quality intern, Accu Tech Plastics, Eau Claire.

Angela Koehler, Colfax, business administration, assistant manager, Cold Stone Creamery, Delafield.

Benjamin Larson, Strum, property management, appraisal trainee, JC Norby and Associates, Eau Claire.

Maxwell Steuer, Eau Claire, computer engineering, engineering intern, Extreme Engineering Solutions, Middleton.

Adam Stuessel, River Falls, packaging, packaging intern, Distribution Dynamics Inc., Eden Prairie, Minn.
Cody VanDenHeuvel, Cadott, packaging, packaging engineer intern, Schreiber Foods, Green Bay.

Ivone Vazquez, Abbotsford, business administration, multicultural recruiter, UW-Stout Admissions, Menomonie.
