2. Statement of the Issue:
One to two sentences summarizing the answer to the question: “What issue are you trying to solve?”

Possible University Priorities to advance the FOCUS 2015 goals were solicited from all faculty, staff and students. In addition, the SPG reviewed FOCUS 2015 progress updates, facts and figures and emerging issues. The Strategic Planning Group also received updates from the groups assigned as responsible for the fall 2009 priorities.

A list of possible University Priority ideas was developed based on the above data and information, and was presented to the SPG on 6/21. Small groups made recommendations as to which items should move forward as a University Priority in fall 2010.

The Chancellor reviewed the recommendations from the small groups and selected the following as the University Priority for fall 2010:

- Integrate sustainability into the curriculum, via classroom experiences, research projects, and general education courses, incorporate into all classes.

This item was selected for the following reasons:

- Builds on the work that began on the fall 2009 University Priority in this area.
- Was selected as a top priority for this small group.
- These initiatives will assist in obtaining the FOCUS 2015 goals for greenhouse gas emissions.

### 3. Action Plan:

4. Implication for Resources:

“What is needed for this priority to succeed?”
(Human, fiscal, physical, other)

5. Key Measures of Performance:

It is the expectation that priority owners will be using/maintaining the process measures to assess action plan deployment. At the end of the fiscal year, the Strategic Planning Group will review and discuss the implementation progress and impact.

**Process Measures:**
Identify no more than two process measures when answering the question:

“What information will be collected to assess successful deployment of the action plan?”

**Performance Indicators:**
BPA is responsible for benchmarking overall performance to answer the question:

“What information will be collected to benchmark and measure the priority’s success?”
