

# Pre-Chiropractic Program

Chiropractic school is just one of many options open to you when you earn a degree in Applied Science. UW-Stout's Applied Science program provides you with everything you need to enter chiropractic school. However, some things you should keep in mind include:

- + Do you enjoy biology, chemistry, and math?
- + Are you prepared for the extracurricular activities that enhance your application to chiropractic school?
- + Are you willing to set aside time to become active in your community?

Chiropractic schools are competitive and therefore look for well-rounded students. You should focus on several things, such as excelling in your courses, maintaining a good grade point average, and being active in your community. Regional examples of chiropractic schools are listed below, but keep in mind many other choices exist. Check out other schools through the Association of Chiropractic schools at [www.chirocolleges.org](http://www.chirocolleges.org).

## Admission Statistics for Chiropractic School

	Number Applied	Number Accepted	Avg. GPA
Palmer	N/A	N/A	N/A
Northwestern	N/A	N/A	N/A
Logan	500	300	3.1
National University of Health Sciences	N/A	200	N/A

## Semesters Required for Entrance Into Chiropractic School

UW-Stout courses to fulfill requirements for entrance into chiropractic school\*

	General Chemistry CHEM-135, 136	Organic Chemistry CHEM- 201, 204/206	Biochemistry CHEM-311	Biology BIO-135, 136 Physiology and Anatomy BIO-234	Physics PHYS-241, 242	Psychology PSYC-110	Kinesiology HLTH-355
Palmer	2	2		2	1	1	
Northwestern	2	1	1	2	1	1	
Logan	2	2	R	2	2	1	R
National University of Health Sciences	2	2	1	2	2	1	R

\*This is a general guideline that is subject to change.

R- Recommended

Note: Other upper level science courses are highly recommended by all pre-professional chiropractic programs. Courses such as English, social sciences, and humanities are also required for entry into chiropractic school.

## Important Factors to Consider

**Internship** The Applied Science program requires an internship to graduate, so students interested in chiropractic school should seek an experience in that field.

**Volunteer Experience** It is recommended that students show an interest in the chiropractic profession through volunteer experiences within the community.

**Research** Research experiences are provided to enhance a student's professional development. Students should seek out research activities early on to provide opportunities to publish peer-reviewed papers and present at regional and national meetings.

**Note:** Many students interested in chiropractic programs complete an Applied Science-No Concentration degree and minor in business.
