B.S. Vocational Rehabilitation
Independent Living Concentration

This concentration provides students with in-depth experiences dealing with the critical issues confronting individuals with disabilities to help them live more independently.

**Independent Living Concentration Objectives:**

1. Effectively utilize resources within our society to assist all persons to live as independently as possible.
2. Provide individualized training in independent living skills.
3. Acquire knowledge of community service delivery programs/resources.
4. Promote community awareness of independent living options.
5. Assist individuals in making modifications in their living environment.
6. Provide awareness training on capabilities of disabled persons.
