Minors

Introduction
Minors are defined as either "studies in the discipline" or as "teaching." Teaching minors are those approved by the State Department of Public Instruction for licensure. Requirements for teaching minors include an education major, passing score on the content exam for the minor, portfolio evidence of competence in the Wisconsin Teacher standards and the minor's content, and student teaching experience in the minor field. Contact the School of Education for information regarding teaching minors. Approval forms and minor program plans are available from the School of Education office and the department offices offering the minor.

Biology
Department of Biology
20 credits required

Required Courses
- BIO-136 College Molecular Cell Biology ........................................... 5
- BIO-332 Genetics ........................................................................... 3
- BIO-350 Ecology ............................................................................ 3

Select one of the following:
- BIO-101 Introductory Biology ............................................................ 4
