# Search for Classes

# 4

Enter Course Number

Enter the **Course Number**.

The screenshot shows the 'Search for Classes' interface. At the top, there are dropdown menus for 'Institution' (UW-Stout) and 'Term' (Fall 2016). Below these is the instruction: 'Select at least 2 search criteria. Select Search to view your search results.' There are two main search options: 'Class Search' (selected) and 'Customized Instruction'. Under 'Class Search', there are three fields: 'Subject' (ART - Art), 'Course Number' (is exactly), and 'Course Career' (Undergraduate). The 'Course Number' field is highlighted with a red oval, and the value '100' is entered in the adjacent text box. There are also checkboxes for 'Show Open Classes Only' (checked) and 'Open Entry/Exit Classes Only' (unchecked).

# 5

Choose Career of Study

Change the **Course Career** to your career of study.

This screenshot is similar to the previous one, but the 'Course Career' dropdown menu is highlighted with a red oval, showing 'Undergraduate' selected. The 'Course Number' field is now 'is exactly' and the text box contains '100'. The 'Show Open Classes Only' checkbox remains checked.

# 6

De-select Show Open Classes

If you wish to view all of the courses that are available regardless of enrollment status, de-select **Show Open Classes Only**.

This screenshot shows the 'Search for Classes' form with the 'Show Open Classes Only' checkbox highlighted by a red oval. The checkbox is now unchecked, indicating that all courses, regardless of enrollment status, will be shown. The other search criteria remain the same as in the previous steps.
