

Diversity Data

The Marriage and Family Therapy program at UW-Stout values diversity among its students, faculty, and supervisors. We believe a diverse group of people working together creates rich learning environment. We recognize there are many categories of diversity including but not limited to race, age, gender, ethnicity, sexual orientation, relationship status, gender identity, socioeconomic status, disability, health status, religion and spiritual beliefs and national origin. Among these categories, we measure three: racial identity, gender identify, and age.

Students

Race

- Asian/Asian American 4
 - Chinese(1)
 - Hmong (1)
 - Korean (1)
 - South Asian(1)
- Bi-racial/Multi-racial 1
