WHAT IS CAMPUS CASH?

The Campus Cash account is an optional account designed for students living off-campus and for faculty and staff. It is a debit account of pre-deposited funds accessed by the Stout BlueCard. Campus Cash is considered a dining plan, and purchases are not taxed at dining locations for students.

Campus Cash may be used at all dining locations. When you received your Stout BlueCard, a Campus Cash account automatically opens with a zero balance. This account may be activated at any time simply by making a deposit. Any remaining funds from previous semesters will remain in your Campus Cash account. Campus Cash funds remain active and usable on campus while a student is actively enrolled or a faculty/staff member is employed.

WHAT IS THE BLOCK PLAN?

The Block Plan is a dining plan designed for off-campus students, faculty and staff who wish to dine at on-campus locations. Meals are purchased in blocks of 100, 50 or 25 and are valid for use at any breakfast, lunch or dinner meal in the Commons and North Point cafeterias. Meals can be redeemed for \$6.75 at any of the University Dining retail locations including: the MSC's Fireside Cafe, Blue Devil Market and Brew Devils; North Point Mini-Mart and Express Locations. These meal purchases are tax exempt for students. When you present your Stout BlueCard to the cashier a meal will be deducted for payment. The Block meals will roll forward from fall semester to spring semester, but any remaining meals will be lost if not used by the last meal served in the cafeterias in May.

WHICH ACCOUNT SHOULD I USE TO EAT AT ON-CAMPUS DINING LOCATIONS?

The answer may be both. Many students, faculty, and staff, have found that using these accounts together is the most economical way to eat on-campus. Block Plan meals are recommended for cafeterias and use of Campus Cash is recommended for all other dining locations.

If you are planning to eat the majority of your meals in the Commons or North Point cafeterias, you may want to choose a Block Plan and supplement it with Campus Cash for occasional purchases in retail dining locations. Block Plan use has the best value in the brunch/lunch and dinner cafeteria meals.
(For more information, see the chart of meal prices inside.)

If you plan to eat infrequently in the cafeterias, using Campus Cash for all of your dining purchases may be your best choice.
